American Association of Community Theatre
AACT NewPlayFest Script Formatting Guide
These guidelines are designed for Microsoft Word or a similar word processing program.

Do NOT put the name of the playwright anywhere in the script or in the properties of the digital file.

Put the name of the play on every page.

Standard Format. The text of the play should be in standard play format, which looks professional, makes reading easy, and provides an estimation of run-time. If using screenwriting software, please note that its default settings are not necessarily standard play format.

Basics. Use standard one-inch margins. All text should be single-spaced, in 12 point Times New Roman or an equivalent font. Pages need to be numbered, except do not number the title page, pages with character list, etc. Page one should be the first page of the play.

Put the name of the play next to the page number:  Play Title 15

When separating characters’ lines or longer stage directions, double space. Song lyrics should be in ALL CAPS, indented .5”. (Musicals may not be submitted, but a play might have one or more songs included.)

Cover Page. The cover page should contain Title, Subtitle, and Copyright notice (if applicable).

Cast and Setting. After the cover page, there should be a brief cast of characters, as well as time and place notes. Character names, ages, genders, and any short but important physical characteristics, or other description belong here. If doubling is possible, it should be mentioned here, as well.

Acts and Scenes. Each new act and/or scene number should be center justified. The act should be written in ALL CAPS and roman numerals, while the scenes should be in capital and small letters, a double space below and underscored, as follows:

ACT II
Scene 6

You should include a description of the setting and activity at the beginning of each scene. These can be simply designated by the terms “Setting” and “At Rise.” An act or scene end should be noted, with “Blackout,” “Curtain,” etc. The end of the play should also be noted.

Dialogue and Direction. When a character is speaking, his or her name should be either centered or set 3.5” from the left edge of the paper in ALL CAPS. Any other brief direction (one-word) can also go on this line in parentheses. Longer directions belong on the following line in parentheses, 1.5” in.
JOHN (laughing)
Text would go here. Emphasis may be indicated by *italics* or **underlining**.

**OR**

JOHN
(Tosses keys across room while laughing)

If you have longer directions, move to the next line. With the same indentation.
(JANE walks across room to pick up keys. She shakes some dust from them and unlocks the door.)

Then continue dialogue after one space. Note that characters’ names in directions are in ALL CAPS. Stage directions should begin 1.5” from the left margin and stop 1.5” from the right margin.

Simultaneous dialogue should be placed side-by-side, spaced to start and end at the same place on the page. Trailing off should be indicated with ellipsis (…) whereas being cut off should be indicated with a dash.

An example of a properly formatted cover page and a play in standard play formatting is included below.
